EGRSE – International Journal of Exploration Geophysics, Remote Sensing and Environment

EGRSE Journal has a long and rich history. Publishing of articles related to professional geophysical problems tends back to the journal named Applied Geophysics issued as Proceedings. It was issued by company Applied Geophysics in locality Brno- Řečkovice, now non-existing yet.

History of development of the journal is following:

- By the year 1993 was issued as Proceedings of Geological Sciences. Applied Geophysics, ISSN 0036-5319.
- From 1994 up to 2004 it was issued yet in the printed form as the Journal EGRSE; Exploration Geophysics, Remote Sensing and Environment (Print), ISSN 1211-359X.
- From 2005 to present this journal is issued in the electronic form as CD-ROM. EGRSE; Exploration Geophysics, Remote Sensing and Environment (CD-ROM), ISSN 1803-1447.
- Since 2007, the magazine has also been published on the CAAG website (full texts of articles); ISSN 1805-2266.

EGRSE is a peer reviewed non-impacted journal that is included into SCOPUS database, all articles have DOI.
